

HAND HELD FOGGERS

COMMON SPECIFICATIONS - HAND HELD UNITS

Motor	1 Hp, 120VAC, 7 amp; 240VAC, 3.5 amp available
Blower	Balanced fan, 20,000 rpm (no load)
Nozzle Technology	Counter-rotating vortex design. High turbulence in nozzle shears feed liquid into fog-sized droplets (7-30 microns VMD). Nozzle has no small orifices and is resistant to plugging.
Chemicals	Nozzle can atomize both oil-based and water-based liquids. Particle size distribution varies with liquid viscosity, surface tension, density and output rate.
Liquid Capacity	1 gallon [4 L]
Output Rate	Up to 10 oz [300 ml] per minute
Materials	Power head, wand, tank - aluminum Tank gasket - Buna N Hose - vinyl Tubing - fuel and oil resistant vinyl Fittings - brass Nozzle - Celcon®
Warranty	Five year limited warranty

Noz-L-Jet 7807

VERSATILE “SPOT” FOGGER FOR PRECISE CONTROL.

Fogmaster’s Noz-L-Jet™ 7807 fogger features a hose and wand for applications requiring targeted output. A toggle valve on the wand lets you turn the discharge on and off. Or, for continuous output, just latch the toggle valve “on”.

The powerful blower discharges 30 cubic feet/min so application is quick. Use the Noz-L-Jet to apply biocides in air conditioning ducts, apply insecticides to wall voids, under kitchen appliances, crawl spaces and above ceilings ... without bending, without a ladder, and without fogging the entire room!

With its superior counter rotating vortex nozzle, the 7807 can use either oil- or water-based chemicals. And it allows control of particle size as well. Just adjust the valve for the desired fog properties - anything from a “dry” fog with maximum hang time to a heavy wet mist which settles quickly.

This fogger puts you in control - the Noz-L-Jet 7807.

SPECIFICATIONS *

Blower	Two stage balanced fan, 20,000 rpm (no load)
Particle Size, VMD	10-30 μ , adjustable. Liquid viscosity and density can affect particle size.
Control Valve	One turn, brass w/ Viton seal
Discharge Rate	0-10 oz [300 ml] /min, adjustable. ON/OFF liquid toggle on wand.
Range	Visible fog, 20-30 ft [7.5 m] from end of wand.
Hose/Wand	36 in [91 cm] hose and either 38 in [96 cm] long curved wand or 16 in [40 cm] short straight wand
Dimensions	LxHxDia: 12.5 x 15.4 x 8.6 in [32 x 39 x 22 cm].
Shipping Weight	12 lb [5.4 kg], plus hose & wand (long; short): 3; 4 lb [1.4; 1.8 kg]
