ATTENTION: CALIBRATE BEFORE MEASUREMENT
CALIBRATE WITH SETTING RING FOR TUBES
CALIBRATE WITH CALIBRATION CYLINDER FOR CYLINDERS

CONCENTRICITY GAUGES

4786-1E

4786-2E

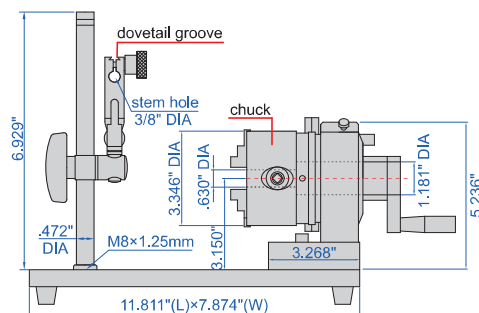

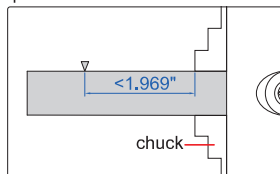

for cylinder

for tube

to ensure the accuracy .00012",
the distance between measuring
point and roller should be <1.969"

4786-1E

- Accuracy .00012"
- 1.969" DIA setting ring and
2.165" DIA calibration cylinder are included
- Optional accessory: dial test indicator

Part No.	Applicable inside diameter	Applicable outside diameter	Remark
4786-1E	.945" DIA~2.520" DIA	.079" DIA~2.756" DIA	fixed stand, good rigidity
4786-2E	.945" DIA~2.520" DIA	.079" DIA~2.756" DIA	universal stand, convenient operation
