

Improve business efficiency • Improve employee workplace safety • Improve patient care & management

ABS Patient Security Cabinet - #291640

Master, sub-master and user code options offer flexibility in level of security. Keyless touch pad uses 4-digit code you program yourself. Electronic lock uses 1 AAA battery (included) and has a battery failure override. White ABS plastic cabinet impedes viewing of contents and is easily cleaned.

- Durable stainless steel hinges stand up to repeated use
- Keyholes for mounting to wall
- Not made of natural latex
- Measures 10½" H x 7½" W x 4" D
