

Isolation Stations - Stainless Steel - #307000

Steel isolation stations are constructed of durable stainless steel and spot welded for a sleek, easy to care finish that will withstand years of use and still look new. Our stations are designed to provide convenient, easy access to Person Protective Equipment (PPE) supplies where space is limited. They are ideal for use in any area where infection control protocols are in use. These stations are simple to load and can be mounted on a variety of surfaces. Each unit accommodates up to four different gloves sizes and two mask boxes as well as an area isolation gowns. These units include a limited 5 year warranty.
