HMM105 Digital Humidity Module

Type	Options	1	2	3	4	5	6	7	8
Output Signal	Component Board I2C Humidity Transmitter	A							
Probe Type	Feed Through with flex cable, HMM105		1						
Humidity Sensor Type	Robust general purpose humidity sensor (180R)			A					
	Extra fast response humidity sensor			B					
Sensor Protection	Porous PTFE Filter Ø12, L22mm				1				
	Plastic grid filter				2				
	Membrane filter				3				
	Teflon filter				4				
	Stainless filter				5				
Module Cable	No Cable					A			
	Connection Cable HMM105					B			
Packaging	Package for a Single Product						1		
	Multi-package for up to 25 Products						2		
Identity	Vaisala Package Label HMM105							1	
Quick Reference Guide	No User's Guide								0
