

Detailed Technical Data-BH76 Plus SpecSheet

Yealink Bluetooth Business Headset

The Yealink BH76 Plus Bluetooth Wireless Business Headset provides a stylish appearance, with an ultimate audio quality playback experience, an unparalleled wearing experience, retractable hidden microphone arm technology, three levels of Hybrid active noise cancellation (ANC), and Yealink Acoustic Shield Technology supported by multiple microphones. With soft memory foam and an ergonomic over-ear design, the BH76 Plus can be worn comfortably for all-day use. In addition, ANC and passive noise cancellation can provide an immersive noise reduction experience, no matter your noisy environment. Meanwhile, the BH76 Plus provides two different wearing modes: on-ear and over-ear. Users can choose the wearing mode to achieve the most comfortable wearing experience.

busylight for
full visible angles

Key Features

BH76 Plus Black

BH76 Black

On-ear Ear Cushions

Over-ear Ear Cushions

On-ear and Over-ear

The BH76 Plus is designed with a replaceable ear cushion, allowing users to switch between on-ear and over-ear according to their needs freely. The built-in firmware automatically recognizes the type of ear cups to adjust audio parameters, ensuring you get the best experience in any situation. Ergonomic design and premium materials support you comfortably and sensibly wearing headphones all day.

Multiple Microphones Acoustic Shield Technology

With the Yealink Acoustic Shield Technology, the five Microphones built into the BH76 Plus block the background noise automatically but ensure that the participant's voice can be heard clearly, which greatly

boosts communication efficiency.

Ultimate Music and Calling Experience

Designed for music and calls, BH76 Plus supports a dynamic EQ that can automatically switch between call mode and music mode. The BH76 Plus supports three levels of Hybrid active noise cancellation (ANC) that can enhance noise reduction. In addition, the upgraded BH76 Plus ear cushion can physically isolate most of the noise, combined with ANC, average noise reduction reaches 35dB, bringing the best auditory experience for users.

Excellent Battery Life Performance

Its long battery life offers up to 40 hours, saving users from searching for a charger. In addition, the BH76 Plus supports USB and wireless charging. Users can purchase an additional Qi charging stand for the BH76 Plus and mobile phones, which provides easy charging.

Visible Busylight for Ultra-wide Angle

When users make a call or attend a meeting, the visibility indicators on both sides of the BH76 Plus automatically glow red to reduce external interference and allow users to focus on the conversation.
